

DESTREAM — THE FIRST DECENTRALIZED GLOBAL FINANCIAL ECOSYSTEM FOR STREAMERS

The video game streaming market is booming but the hefty commission fees on streaming platforms can reach 20%.

DeStream is a decentralized financial ecosystem for streamers that aims to simplify all the additional operations for streamers.

The sophisticated add-ons will help advertisers to reach streamers' services, viewers to request more diversified actions from streamers, and streamers to cash out the revenue with much fewer commissions and to focus on creating high-quality content.

DESTREAM PLATFORM ADVANTAGES

Economy: thanks to blockchain technology, the transaction fees of cash out for streamers will be reduced up to 0.77%, which is 20 times lower in comparison with other systems.

Security: smart contracts for streamers, viewers and advertisers protecting each side.

Advertising: the engine based on Big Data analysis algorithms will allow distributing the advertiser's budget between a number of streamers having an active growing audience.

Marketplace: will allow streamers to buy necessary equipment and other goods without fiat money or to sell their merchandise, virtual items and services.
